

Why Submit

Be part of the FRPT 2023 programme in order to push forward your career.

Get recognition for your work, constructive feedback, and new ideas. Share your findings with the FLASH Radiotherapy community and make a name for yourself in the field. Showcase your work in front of like-minded people and get ready to answer questions! Your research will gain wide exposure, you will get valuable feedback and ideas, and your name will be recognised in the programme. Use this amazing opportunity available to you at FRPT. Presenting your abstract at FRPT 2023 will allow people to know that you are doing research in FLASH and Particle Therapy and will allow you to connect to future collaborators. Discuss your findings with experts from around that are interested in your topic. Develop your presentation and communication skills, an essential competence for advancing your career. The more you present your work, the better you become at explaining why your results are important and how they can impact science. FRPT provides a chance to win Best Abstract Award, Best Oral Presentation Award and Best Poster Award. Be sure to apply before the deadline. Find out details about the requirements for each type of award or a scholarship [here](#). Sharing your research contributes to our goal of improving the life of patients with cancer. The research in the field of FLASH and Particle RT can impact the treatment, management, and diagnosis of many conditions. Make a difference! Submission allows you to be creative in sharing your presentation in any of the formats available for the Conference. You can also choose among various abstract topics.
